About the Department

The Department of Mathematics and Statistics started in 1971 under the dynamic leadership of Padma Bhushan Professor P.L. Bhatnagar. Over the years the department has made its mark in the academic world. Professor M.B. Banerjee of the department was awarded the Shanti Swaroop Bhatnagar Award in 1988. Professor S.N. Dube, Professor M.B. Banerjee and Professor R.C. Sharma have been conferred F.N.A.Sc.

Over the years more than 120 students have completed their Ph.D. Degree in Mathematics from the University. In recognition of large number of national and International research publications by the faculty members and other academic initiatives, the department has been selected by the UGC Special Assistance Program (SAP DRS-I) in 2009 and after the assessment of the research work done in the previous phase of the project, the department has been again awarded the DRS-II level w.e.f. April, 2015 to March, 2020.

About the Seminar

Mechanics is a branch of Physics that deals with the analysis of the kinematics and the mechanical behavior of materials modeled as a continuous mass rather than as discrete particles. Mechanics plays a vital role in the study of various processes and physical models of real world. The major areas of applications of mechanics are Solid mechanics and Fluid mechanics.

The objective of the seminar is to provide a platform for Scientists, Engineers and Researchers to discuss the recent advances and trends in the various fields of mechanics. The deliberations of the seminar include the invited lectures by the eminent scholars and research paper presentation by the young researchers relevant to the theme. While the seminar will be primarily devoted to the original research, expository articles that encourage communication between researchers and experts in areas of application as well as those presenting the state of the art on the sub-disciplines of Mechanics will be considered.

Persons interested in taking part in the conference are required to send the enclosed Proforma duly filled together with a copy of the paper typed in MS- Word to the Organizing Secretary of the seminar latest by November 14, 2015.

The invited speakers are also requested to provide the text of their talks before November 14, 2015 to the organizers so that the copies of the talks may be distributed to the participants.
